ACTIONS SO FAR

TODAY'S SESSION

Monitoring & Evaluation to deepen learning: how M&E approaches can advance Sustainability Governance

- **Gain new ideas** about the role of M&E in transformative sustainable urban development and why we might need to think differently about M&E when dealing with holistic sustainability.
- **Hear from two cities (Greater Manchester and Espoo)** how they have begun to approach M&E and Voluntary Local Reviews to support organisational learning.
- **Connect with peers** interested in this topic and think together about the key takeaways from the session.

POSSIBLE FUTURE TOPICS

- Exchanging on the specific selection of SDG indicators, including for VLRs, and discuss setting target values to know when targets are achieved
- Ex-ante evaluation of actions and projects for determining their effect on targets and KPIs.
- How to set up cross-department/sector collaboration for M&E, simplify systems and allow for weighing of different interests
- And more...
